

# NEW HAIR COLOR GUEST INFORMATION & CONSENT

Tania Saldaña is the Owner and Director of Colour Bar.

All our Studio colorists have been trained by Wella and are known for their superior creative and hair coloring techniques.

Please note that hair color corrections are cumulative. Sometimes several appointments are needed for “color corrected” hair to be near perfect. As always, please ask your colorist for specific details and the number of services required to meet your hair goals.

Please allow us to style your hair after coloring. Your results are most accurately evaluated on dry, smooth, correctly finished hair. Unfortunately, we do not maintain space in the salon for clients to self-style or blow dry their hair.

When making your appointment please indicate whether you prefer your stylist blow dry your hair (for an additional fee) or if you prefer one of our Junior Stylists (no additional charge).

Additional Salon Policies:

- ☞ We accept all major credit cards, or U.S. Dollars to pay for services. Our detailed price list is available at the desk.
- ☞ Services are non-refundable.
- ☞ Payment is required at the time of service.
- ☞ We cannot be responsible for damaged, lost or stolen personal property.
- ☞ Children are our next generation of customers and we gladly welcome all well-mannered children. For your child’ s safety in the salon: running, climbing, and spinning on chairs is discouraged. Smiles, hugs, and laughter are always welcome!

I have read and understand the information above.

# HAIR COLOR SERVICES INFORMED CONSENT

I understand that a small percentage of individuals can experience adverse reactions due to the application of hair-coloring products.

These reactions can include burning, redness, itching and/or swelling. Some persons may develop chemical burns on the scalp or hairline.

Further, I have been informed that a small percentage of individuals may react to hair-coloring even though they have never had a reaction in the past with repeated applications.

I also know that my colorist at Colour Bar Studio can give me a patch test, which determines whether or not I will experience a reaction to hair-coloring. This patch test must be given 48-hours (two days) before my appointment for hair-coloring.

I have read and understand the information above.

- I DO NOT want the patch test. I direct Colour Bar Studio to proceed with the coloring of my hair.
  
- I DO want the patch test. I agree to wait 48-hours before proceeding with the coloring of my hair at Colour Bar Studio.

By signing this waiver, I hold harmless Colour Bar Studio, including owners and employees from any liability arising from the application of hair-coloring products from this date forward.
